

Enter A Title and Add Logos To Your Poster

Add Author Names and Information Include affiliations; identify patient/caregiver authors OR add patient and caregiver representation statement

Background / Purpose

What challenge or opportunity is being addressed?

Aims / Objectives

What are the specific aims/objectives of the project?

Approach / Methods

How were patients/caregivers engaged?

What frameworks or methods were used?

How was information and/or data collected?

What analytical approaches were used?

Patient Engagement or Innovation Description

Clearly describe how engagement was designed/embedded

Reflect level of engagement (e.g., consult, collaborate, co-lead)

Results & Impact

What changed as a result of this work?
Include measurable outcomes where possible

Equity & Inclusion Considerations

How were EDIA / IDEAS principles integrated in:

- Team composition
- Engagement design and execution

Key Insights / Lessons Learned

What should others take away?

Limitations

e.g. generalizability, sample size, methodology, etc.

Relevance

Why does this matter for advancing patient-centered care?

Implications for (e.g) health systems, research, policy, industry, patients, caregivers?
